Persons who require assistance or need information regarding access to the meeting and the availability of special facilities are requested to contact Laurie Hardwick, ADA Coordinator, at (765) 655-2301 or (765) 653-3100, at least three days in advance of the meeting.

Appointed/Elected Officers (Board Members) per IC 5-14-9

<u>Name</u>	<u>Appointed By</u>	<u>Term Ends</u>
Gary Bowser	Mayor	1/31/2028
Lynda Dunbar	Board of Works	1/31/2028
David Masten	Common Council	1/31/2028
Veronica Pejril	Mayor	1/31/2028
Tim Trigg	Park Board	1/31/2028
Kevin Verhoff	Mayor	1/31/2028
Matt Welker	Mayor	1/31/2028
Eric Wolfe	Mayor	1/31/2028
City Engineer: Jeffrey Mahan	I.C. 36-7-4-207	Continuous
City Planner: Blaine Rout	Appointed by Mayor	Continuous
Secretary: Scott Zimmerman	Appointed By Commission	Appointed for Each Calendar Year
City Attorney: Laurie Hardwick	Present As Counsel	Continuous

City of Greencastle
PLAN COMMISSION
Minutes
February 23, 2026

The meeting was called to order at 6:00 p.m. by David Masten.

Members Present: Gary Bowser, Lynda Dunbar, Jeffrey Mahan, David Masten, Veronica Pejril Tim Trigg, Matt Welker, and Eric Wolfe.

Members Absent: Kevin Verhoff.

Also Present: City Attorney Laurie Hardwick, City Planner Blaine Rout, Asst. Planner Scott Zimmerman.

Also in attendance: Matt O'Rourke of American Structurepoint for the compressive plan P26-01 was available by phone. Ryan Gallmeyer, Jason Chew, Aleh Fetahagic for P25-05. Greencastle City Council Member Kathi Asbell, IVY Tech manager Tammy Keenan, and Greencastle residents Amanda Standers, Chris Hebb and Jackie Kehr.

A quorum was confirmed by Zimmerman.

Masten called for any PUBLIC PETITIONS or COMMENTS for items not on the agenda. Hearing no comments, he called for the approval of minutes.

APPROVAL OF MINUTES – Pejril moved, seconded by Wolfe to approve the minutes of February 23, 2026 as presented. Motion passed unanimously. There being no Old Business, Masten introduced for following petition.

NEW BUSINESS --

P25-05

Petitioner: DePauw University

Requesting Major Subdivision Process for Seminary Square

Development Project – Preliminary Plat

Ryan Gallmeyer explained the original preliminary plat was scrapped to better reflect ownership and financial arrangements for the development. They now need to have five lots. Rout explained due to January's plan commission cancellation, it put the project back a bit but everything else for the project is consistent with what was originally presented. He noted there were also easements that needed to be finalized. Rout reviewed the variances approved by BZA and the waiver of storm water detention standards by the board of works. Wolfe asked for details about the road easement for Vine Street since it appears the building goes into the easement.

Rout confirmed the building doesn't go into the easement. Hardwick confirmed the utility easements will stay in place and the road will be 1 way but can be closed for events.

Masten commented that the Primary Plat would be on public hearing. Welker moved, seconded by Dunbar to open public hearing. The motion passed unanimously. The revised plat was passed around to the audience. Rout reviewed the uses for the five lots. Wolfe clarified that this is driven by the need to divide ownership arrangements. Amanda Standers, 1599 S Co Rd 400 W, Greencastle, asked about affordability. Gallmeyer explained this will be market rate housing or 80% Area Media Income (AMI) level, not subsidized housing. Wolfe moved, seconded by Trigg

to close the public hearing. The motion passed unanimously. Welker asked for clarification that the road would provide adequate fire safety. Hardwick confirmed that it had been reviewed by the Fire Department and been through Technical Review Committee meetings. Dunbar added that the road wouldn't be vacated until November 1 and that Greencastle City Council had already approved the vacation.

Wolfe moved seconded by Dunbar to approve the plat. Motion passed unanimously with Pejril abstaining due to connections with DePauw.

Masten announced the next petition.

P26-01

Petitioner: City of Greencastle

Requesting: Review of new Comprehensive Plan draft and recommendation to City Council for adoption

Welker moved, seconded by Pejril to have the petition on public hearing. The motion passed unanimously.

Rout read an explanation of what a comp plan does and reviewed additional aspects of the plan using the outline Rachel Cardis shared with the commission last month. Masten shared that after our casual review last month, additional input was requested. Some have already been introduced into the plan such as map updates. Matt O'Rourke shared by phone that the Critical Path Strategies are a guide to implementation of the plan for the next five years in particular. Dunbar asked to review the Future Land Use map. O'Rourke made sure to clarify that it does not change any of the underlying zoning. Bowser commented that the classifications are too general in his opinion. Wolfe also asked to have it more clearly defined. Dunbar pointed out the map shows the ability to make changes for future growth.

Jackie Kehr, 610 Anderson Street, Greencastle, asked about church lots that could be developed. It appears that we want any Institutional lot to remain Institutional if anything were to change in ownership. Rout pointed out that some of the development standards for Institutional District will get worked out through the Unified Development Ordinance. The commission then reviewed many of the Institutional lots. [Revisions will be presented at the next commission meeting.] O'Rourke interjected that even the comp plan map can be amended after its adoption. Mahan pointed out the future land use map is what the commission uses to justify potential rezonings once the new zoning map is adopted.

The commission also discussed the lack of agriculture as a future land use. It was pointed out that it is not likely Greencastle's growth will include annexing land specifically to be used for agriculture. Wolfe also questioned the size of the Central Business District, pointing out it goes all the way west to Gillespie Street. There was discussion of the potential to protect historic residential areas. Rout pointed out that could be done through overlay districts. Dunbar proposed a "Downtown Business District" immediately around the courthouse square and then a "Downtown Historic District" that might mirror existing National Register Historic District areas.

Rout reviewed more of the comments gathered from commission members starting with Wood Street Apartments. [see 3.26.26 staff report] Major decisions included changing all of Indianapolis Road to commercial development; changing Calbert Way zoning Church lots should probably be whatever is adjoining but the school lots could be left as listed.

Bowser had additional questions about roads. He requested that more detailed definitions be added to the road classifications. O'Rourke pointed out they're on the page before the actual map. Bowser requested they be consistent with INDOT definitions.

Masten asked if there were any further discussion items. Pejril moved, seconded by Wolfe to close the public hearing. The motion passed unanimously.

Wolfe moved, seconded by Trigg to table the item to the next commission meeting. The motion passed unanimously.

HOUSE BUSINESS – None

Hearing no further comments, Dunbar moved, seconded by Bowser to adjourn at 7:25 p.m.

Respectfully Submitted,

Scott Zimmerman

Commission Secretary

City of Greencastle Plan Commission

Staff Report Monday, May 4th, 2026

I. P26-01

Petitioner: City of Greencastle

Requesting: Review of new Comprehensive Plan draft and recommendation to City Council for adoption.

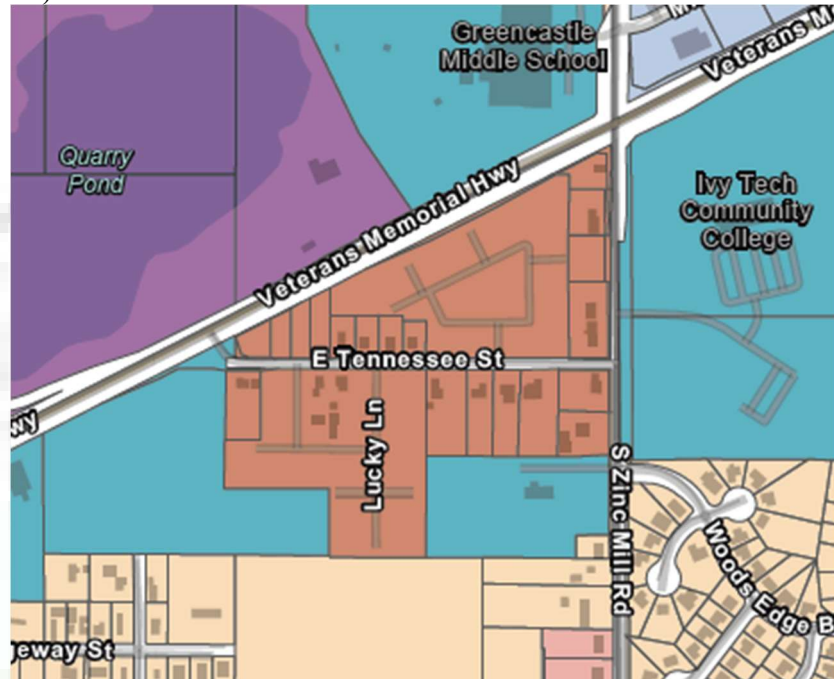

P26-01

Discussion from March's meeting resulted in several corrections and suggested changes to the draft.

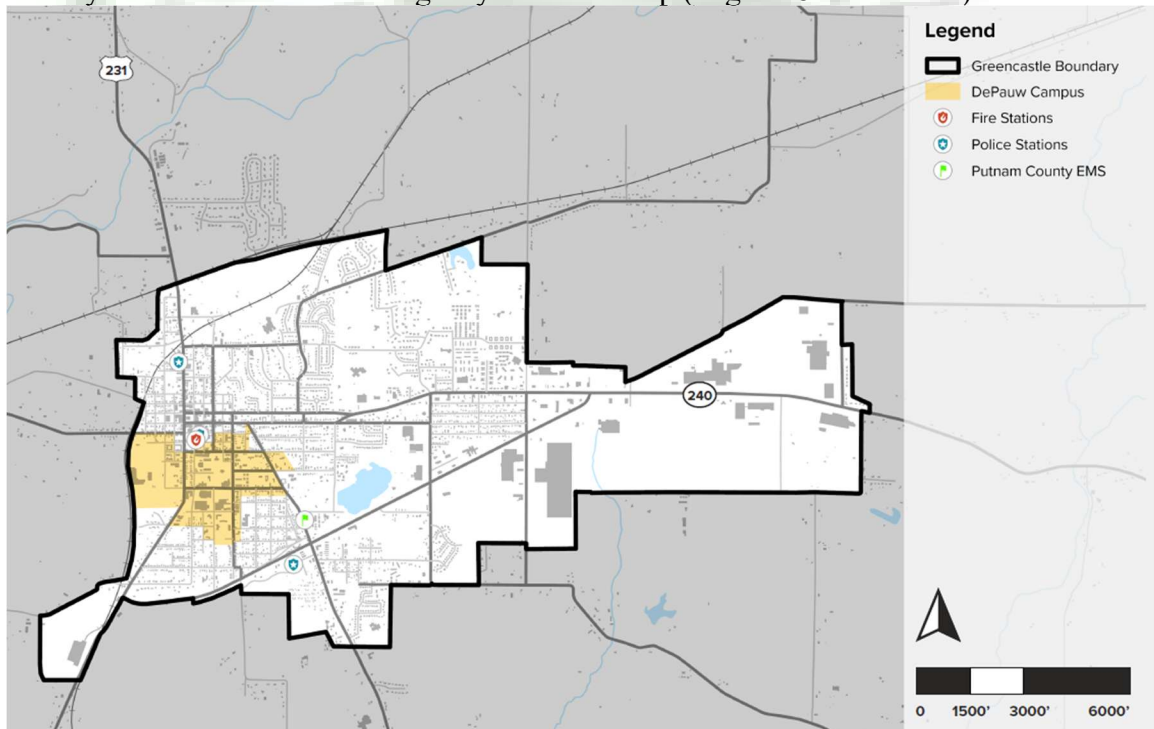

- Wood St Apartments fixed to show multi-family (Future Land Use Map – Page 52):

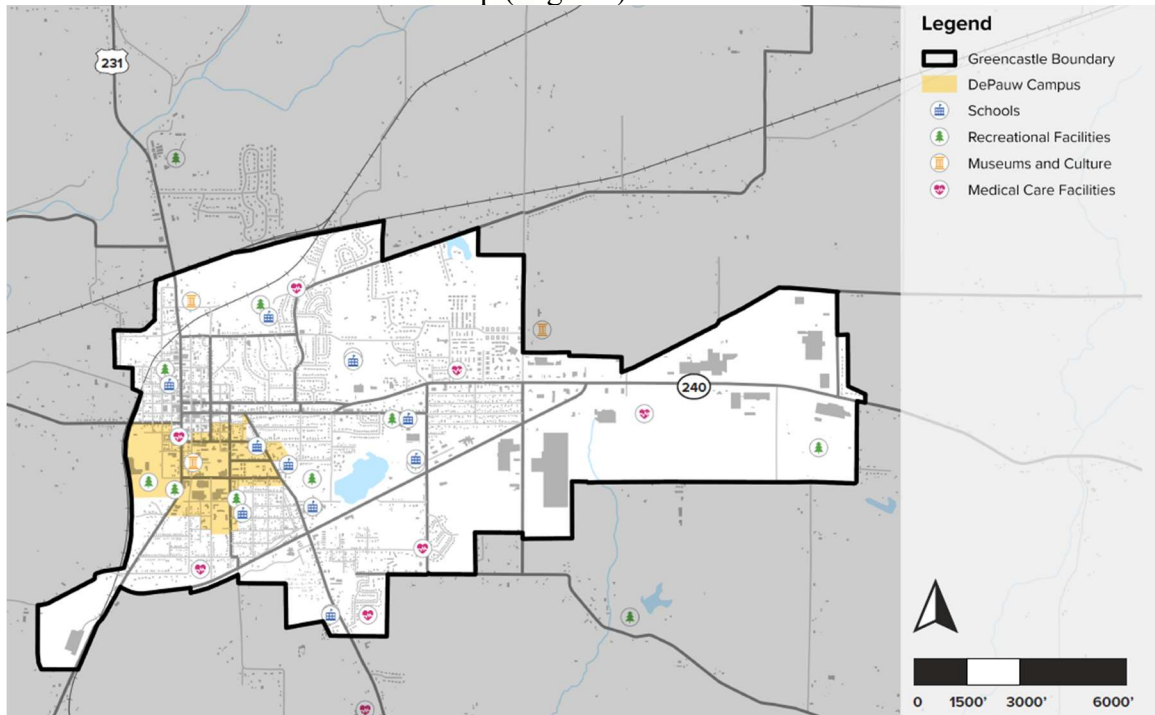

- Zinc Mill Apartments (By Ivy Tech) is now shown as multi-family (Future Land Use Map – Page 52):

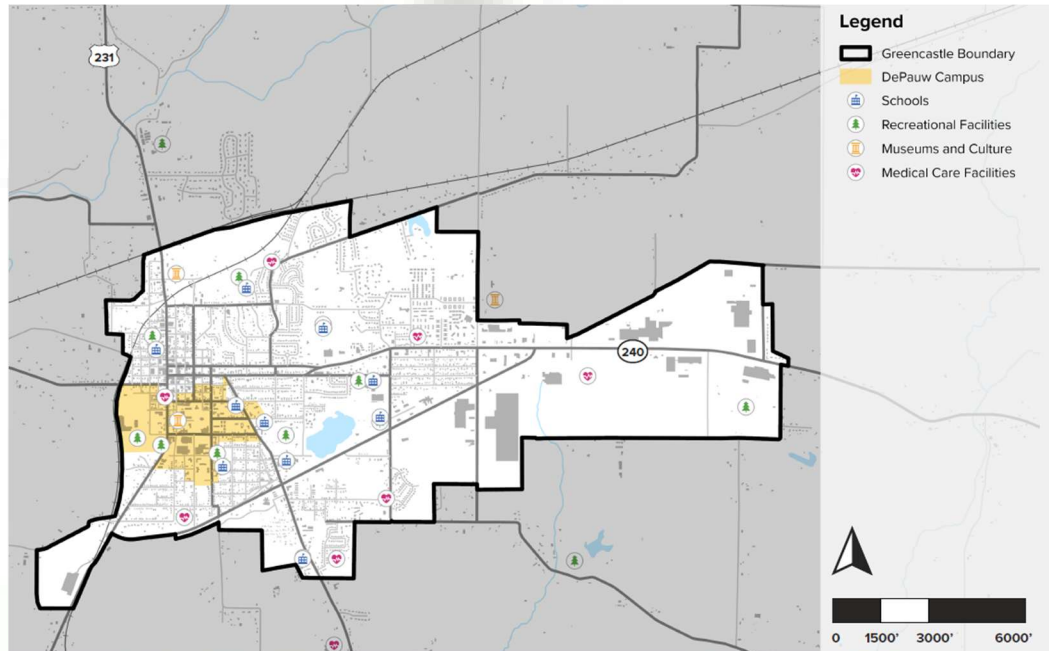

- County EMS added to the Emergency Services Map (Page 148 of the draft):

- Hendricks Medical Facility (1033 Indianapolis Rd) added to the Community Facilities Map (Page 150 of the draft), and changed from Institutional to General Business on the Future Land Use Map (Page 52):

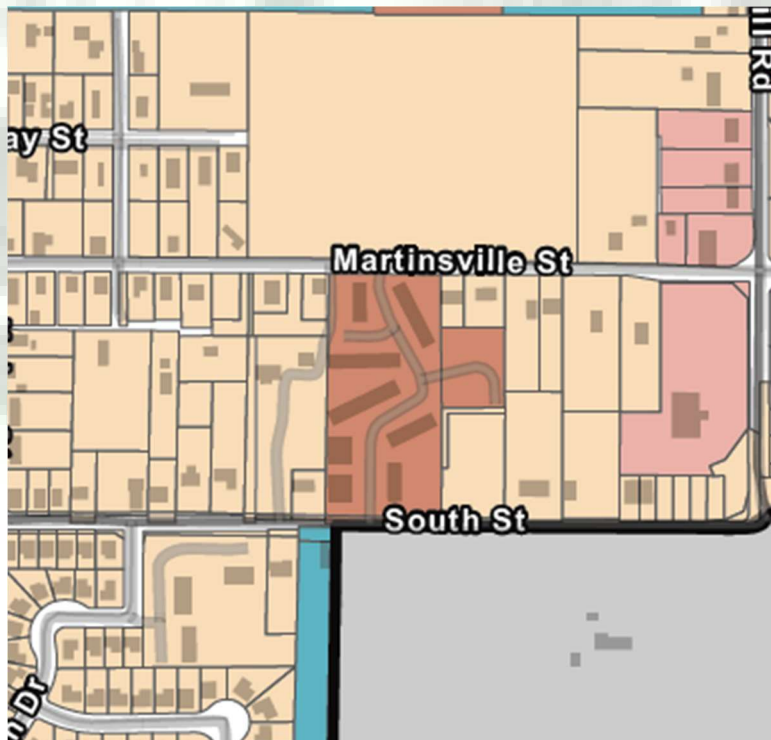

- Putnam County Hospital, Prompt Care, Sports Medicine, Wellness Center, and YMCA to the Community Facilities Map (Page 150 of the draft):

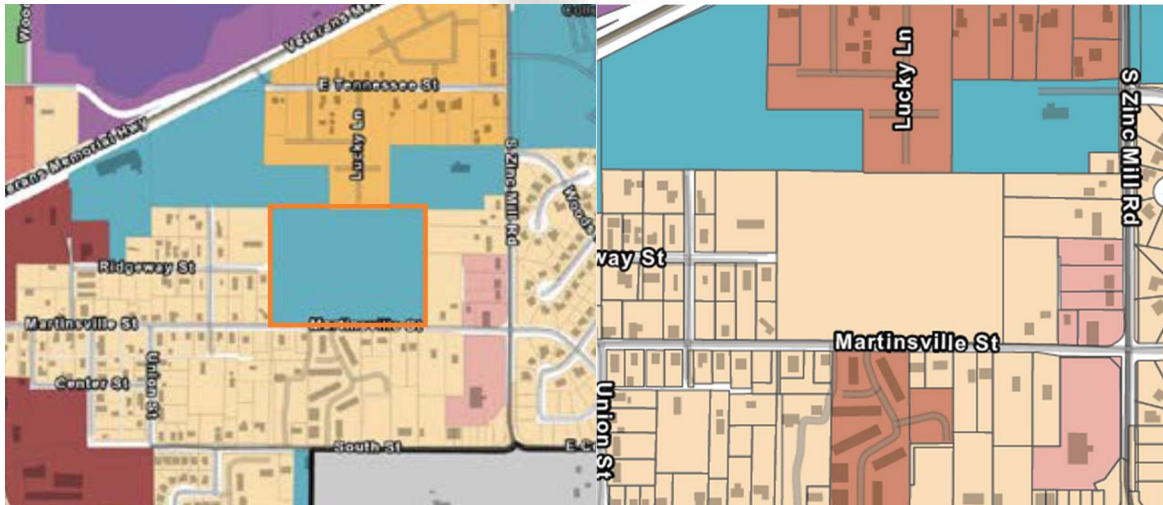

****Location is identified on the map, but the YMCA includes recreation facilities** A simple addition of the recreation facility icon seems appropriate.****

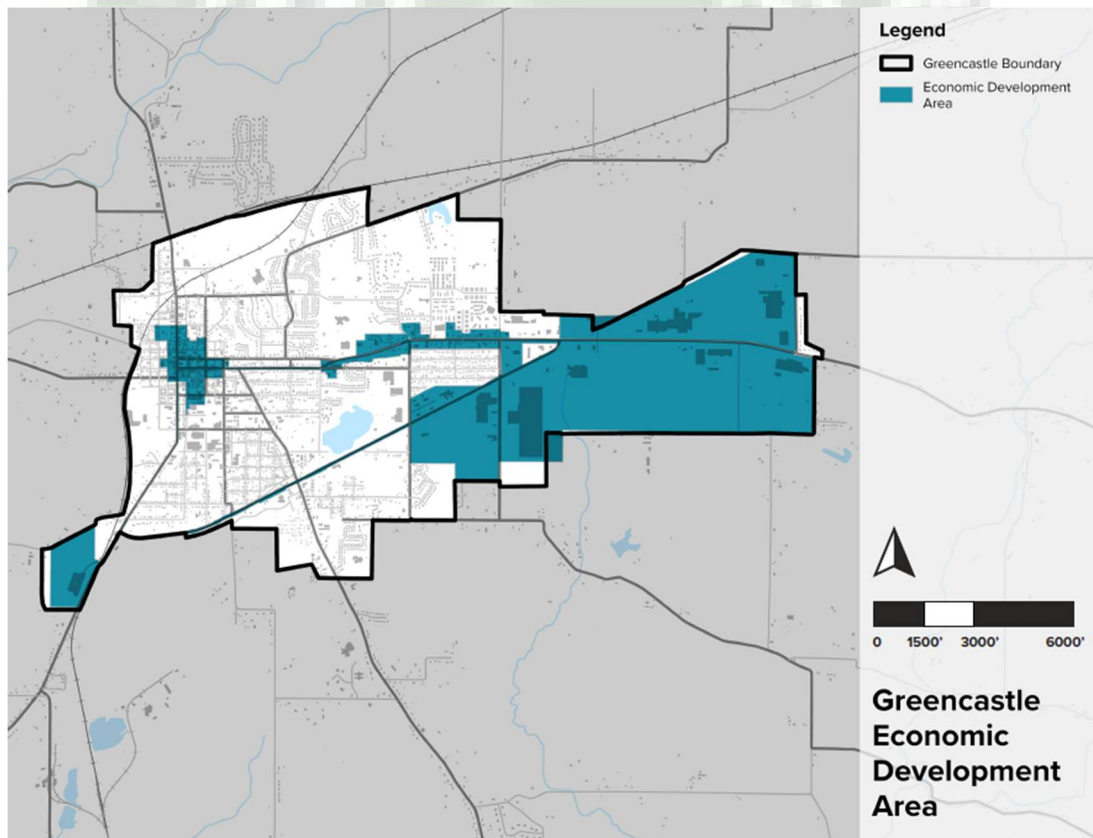

- Millstone Pointe fixed to show multi-family (Future Land Use Map – Page 52):

- Segment of Institutional District changed to Single Dwelling Detached Residential (Page 52):

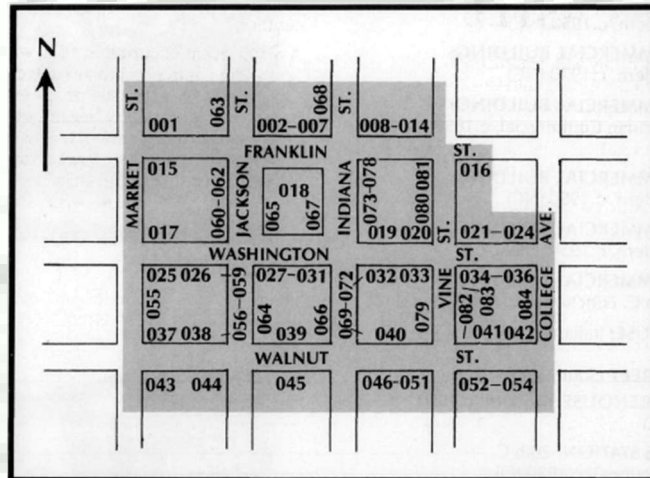

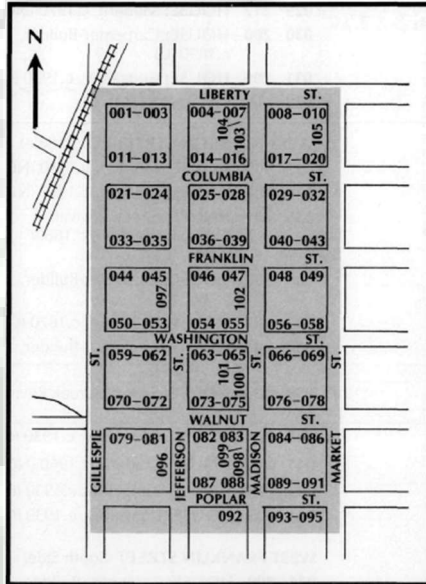

- Greencastle Economic Development Area digitized and incorporated (Page 142):

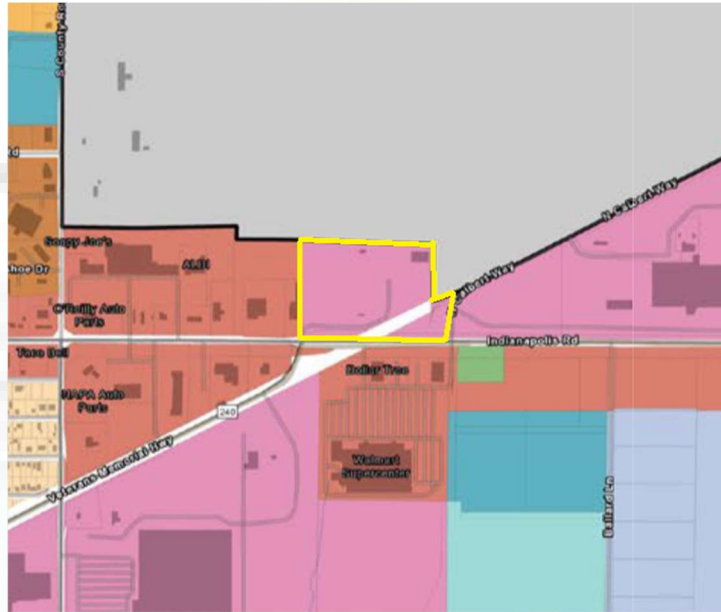

(This has also been added to City GIS mapping by Planning)

- Agreed that Downtown Business District should protect historic homes within. District remains consistent on Comp Plan (Page 52) with expected overlay of “Old Greencastle” per National Register of Historic Places:

- Churches designated as Institutional changed to mirror the zone district they are abutting. Schools and other properties identified as Institutional remain.

- Calbert Way properties remain Light Industrial due to anticipated development project:

- Page 32, General Agricultural Character District is within the list of districts, but we have no GAC areas that translate to the map. Should be removed. **Initial conversations during UDO draft meetings have found that no parcels within the city limits have the acreage available to fit the traditional interpretation of Agricultural Character. Any land outside of the city limits would likely be annexed specifically for the purpose of developing a residential subdivision.**
- Page 38, under “Streets and Transportation”, the last sentence stated “...should be concentrated near Principal Arterial, Collector Primary, or Local streets.” This is de facto referencing basically all street classifications. This has been reworded.
- Page 42, first paragraph stated “SR 231” rather than US 231. This has been corrected to state US-231.
- Page 44, paragraph 1, lists “stereo stores”. “Electronics” has taken its place.
- Page 144, map name changed to “Greencastle Functional Classification Map”.

In-House Business: None.

Respectfully Submitted,
